

The Shield

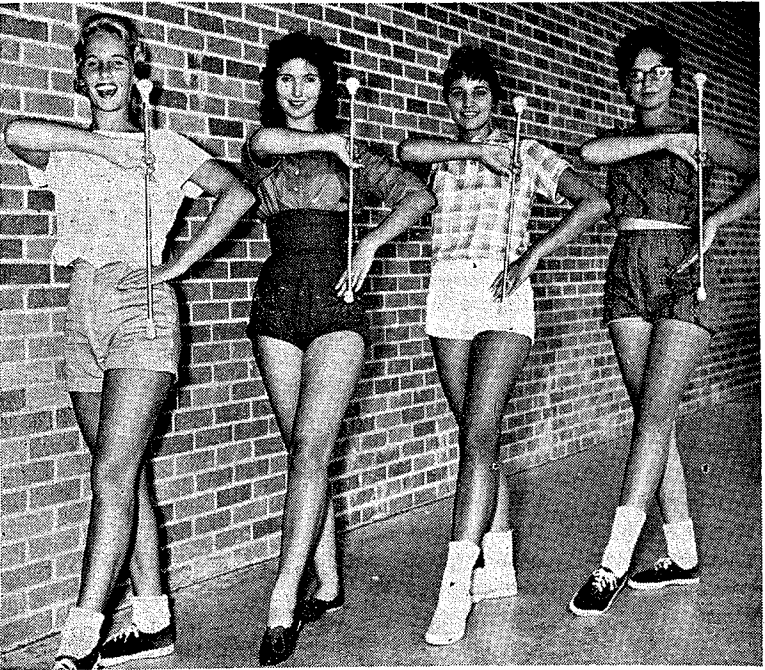

No. 1

A. N. McCallum High School, Austin, Texas, Friday, September 9, 1960

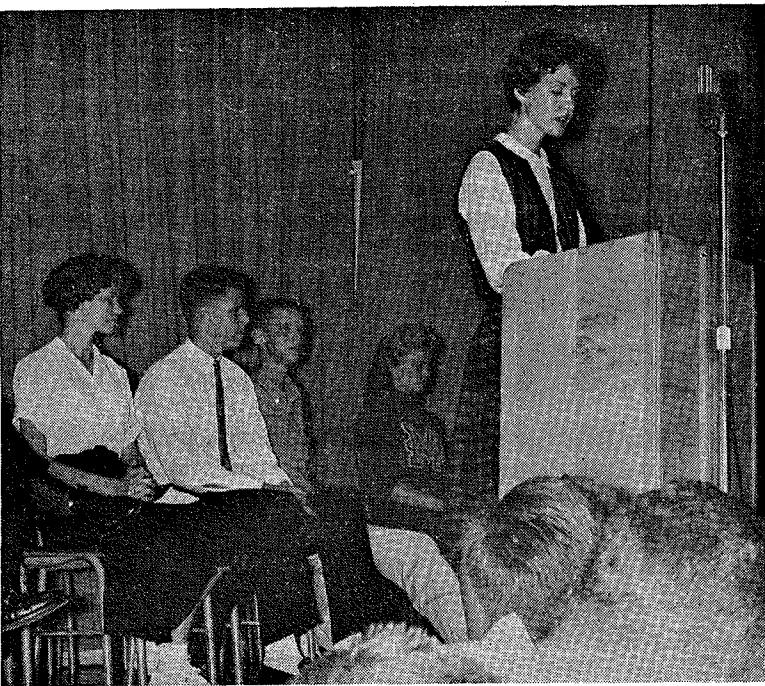

Vol. VIII

Forward . . . March! Blue Brigade ranks pass in review as they learn marching procedures and routines for their appearances at half-time during football season.

Donna Smoot, Sandra Boardman, Patsy Dugger, and Beth Beasley practice a salute in preparation for their first appearance as majorettes with the Knight Band.

Carol Cummings, last year's recipient of the Student Council award, greets the sophomores at a special assembly held during registration.

A student receives some expert help from a McCallum teacher at registration. Total enrollment this year is expected to reach 1,800.

1,800 Set As Enrollment Goal As MHS Begins Eighth Year

McCallum is growing to be one of the largest schools in Central Texas.

There were 1,540 who enrolled on August 31, 1960. Over 100 were new to McCallum and the Austin Public Schools. The final number is not known yet, but McCallum expects to enroll about 1,800 for the first semester. The sophomores and juniors are expected to number about 650 each. The seniors should enroll about 500.

McCallum has 15 new teachers this year. The first one, Mr. Fred Brown has attended the Southwestern State Teachers College, also the University of Texas. He also acquired a B.B.A. degree from the University of Texas in 1956. He has taught for three years at Llano High School. He will be teaching general math and plane geometry.

Mr. Walter Conway graduated from Hardin-Simmons University in Abilene. For the last two years he has been doing graduate work at the University of Texas. He has also served in the army for 25 years. He has taught for three years, but this is his first time to teach in Austin. He will be teaching American and world history.

Mrs. Dorothy Hutchison has graduated from the University of Texas with a Bachelor of Arts degree. She has been teaching for eight years, three years at Stephen F. Austin in Houston, two years at New Braunfels and two years at Round Rock High School. She

will be teaching two classes of English III and two classes of English V.

Miss Marjorie Menefee has a Bachelor of Journalism degree from the University of Texas where she worked on the Daily Texan. She taught English in Dallas for one year.

Mr. Joe Rigsby is from East Texas where he attended school until '41. He attended Lamar Junior College in Beaumont for two years. In '51 he attended Abilene Christian College where he received his B.S. degree. This is his first year in the Austin Public Schools. He has a sophomore advisory and will teach science.

Miss Roepke likes to call Thorndale, Texas home. She is a graduate of Southwestern Texas State Teachers College in San Marcos, and has her B.S. from there. She has been teaching for nine years. Two of these years were spent in Okinawa and Japan. This is her

first year in the Austin Public Schools. She will be teaching general math and algebra I and II.

Mrs. Gail Voekel is from Stamford, Texas. She has attended Wellesley College in Boston, Massachusetts, and has received her masters degree from the University of Texas. She has her Bachelor of Arts and Masters of Arts in history also from the University of Texas. She has completed one year practice teaching in Austin High School here in Austin. This is her first year of regular teaching and she will be teaching world history and American history.

Other new teachers are Mr. C. A. Jennings, Mrs. Wilma Mann, Mrs. Louis Sheffield, Mrs. Jaunita Titus, Mr. Dennis Vail, Mrs. Gudren Williams, Mr. Marcus Williams, and Mr. Ronald Williams.

Mr. Whittner, principal, says, "I am looking forward to the finest year in McCallum's eight year history."

Monday Starts Hoot Mon Week; Traditional Dance Set Friday

McCallumites can look forward to the annual Hoot Mon Week which will be held this year, September 12 through September 16.

"The purpose of Hoot Mon Week is to provide returning students with an opportunity to renew acquaintances and to help new students to become a part of school

activities." This, in the words of Mr. Whittner, is the purpose of the week as well as the reason for its early date.

To promote the purposes of this welcome week, Hoot Mon books or autograph books will be sold during the week.

As in past years, an election will be held to determine the friendliest boy and girl. The election will be by secret ballot in the homerooms.

Elected as friendliest since McCallum opened were: Will Wyman and Ann Bonds in '54; Gay Maloy and Frank Weise in '55; David Barnett and Mary McGuire in '56; Victor Mokry and Marty Harrod in '57; Walter Wyman and Nancy Schlegel in '58; Jimmy Shafer and Nancy Schlegel in '59; and Jerry Jennings and Charlyne Cooper in '60.

Band Elects Four New Majorettes: Beasley, Boardman, Dugger, Smoot

The 1960-61 majorette picture will be dominated by Beth Beasley, Sandra Boardman, Patsy Dugger, and Donna Smoot. The girls were elected on Thursday, August 25.

The girls were elected one day ahead of schedule so that McCallum could have equal representation at the Zilker Hillside Theatre

where all four high schools presented their cheerleaders, majorettes, and football captains.

Nine band twirlers tried out each morning for a week during rehearsals for one of the four majorette spots. Other band girls who tried out for majorette were juniors Pam Raymond and Wilda Lowden, and sophomores Betty Sue Hoch, Diane Raines, and Patsy Lancaster.

Sophs Greeted By School Leaders

The sophomore class totaling over 660 students paid their first official visit to McCallum on August 30.

Mr. N. H. Whittner extended a welcome to the group which had gathered in the cafeteria. Counselors for the three grades and other school directors were introduced to the students. Also introduced were leaders of various school organizations including Nancy Staples, Blue Brigade president; Dick Peterson, president of the Lairds; and Carol Cummings who has participated in the work of the student council.

The leaders spoke of the goals and accomplishments of the organizations. The importance of maintaining a high grade average which many groups require of their members was also stressed. Music for the brief program was provided by the Knight Band.

All of the majorettes, except one, are returning for their second year. Donna Smoot has served for three consecutive years. All of the majorettes are seniors and will be working with drum major Richard Haschke on the half-time shows.

The Knight Band after two weeks of 7 a.m. to 10:30 a.m. summer rehearsals climaxed its pre-school program with a large turnout for its annual picnic which was held on Monday, August 29, at Lakewood Pool.

Scotch Snips

McCallum football fans may fear that they are opposing Cuban imports as they gaze into the eyes of our rendition of "Fidel Castro," Tank Lindsay.

McCallum football players will no doubt find it a little scratchy in the huddle this year.

Former Teacher Dies After Illness

Mrs. Arnye Deats Johnson, algebra and geometry teacher known and loved by hundreds of McCallum students, died Monday, August 29, 1960, after an extended illness.

Mrs. Johnson had been at McCallum since its opening in 1953. She began teaching at Elgin High School, and after four years there, she came to Allen Jr. High to teach mathematics. She taught at Allen for five years, and then moved to Austin High as study hall supervisor and attendance officer until 1953, when she came to McCallum.

Mrs. Johnson was well known by many Austinites—most of them former students—and shall long be remembered by all McCallum students.

Her funeral was held Wednesday, August 31, at the Central Christian Church.

A. N. McCallum High School
5600 SUNSHINE DRIVE
AUSTIN, TEXAS

To the Students of McCallum High School:

On Tuesday, September 6, we began the eighth year in this very fine high school. It is my sincere hope that you have had a fine summer and are looking forward to an excellent school year.

If you have attended here previously, you no doubt have seen this school grow with many improvements being made yearly and certainly in the fine reputation that has been developed in the community which it serves, the city, the state, and the nation.

To those of you who are attending McCallum High School for the first time, a hearty welcome is in store for you; and we sincerely hope that your year will be most pleasant with a real sense of satisfaction and personal achievement. Many students, graduating from our school, receive scholarships; many receive college credit for work completed in high school on the basis of advanced standing examinations; and others secure city, state, and national honors during their career in our high school. You will read and hear about more of these honors as the year progresses.

We have a community that is interested in its school, a student body that is strong, interested in learning, and appreciative, and a faculty that is highly qualified, most diligent, and constantly striving to provide the best attainable.

We welcome you to A. N. McCallum High School!

Sincerely yours
N. H. Wittner
N. H. Wittner
Principal

Shield Policy

In the past the Shield has brought up such controversial issues such as majorette elections and the point system. In answer to these editorials students wrote their views and they were printed in the Shield. This is just one of the ways the Shield presents both sides of the story.

The purpose of the Shield is to give complete and impartial coverage of all events and activities of McCallum as well as subjects that will interest students.

The views expressed in the editorials of the Shield do not necessarily reflect the opinions of all staff members, but the majority. Students who have opposing views are invited to write an answering editorial.

Students who are not staff members are also invited to contribute stories, art work, and ideas to the Shield. However, all articles may not be run because of lack of space or poor quality of writing.

Students who have suggestions for improvement are invited to contact either the sponsor or the editor.

knight life

By Linda Hoy and Bob Smith

As you all know, there are many recreational opportunities in the summer, however, there is not much to do in the winter—unless you go to McCallum.

For instance, Ice Skating on the floor of the English corridor when the heating system goes on the "blink."

Sailing down the main corridor when the Student Council water coolers prove inefficient and the great supply of air flowing from the administration office makes for an enjoyable hour of entertainment.

For those who are fortunate enough to bring their own car to school there are the daily "chicken matches" in the parking lots.

One of the earliest possibilities for sports is the very first day of advisory and the Pupil Program Cards with which one may participate in a friendly game of poker.

Also for those who enjoy a good comedy there are always the Vocational Guidance Assemblies every Wednesday morning.

We shall now discuss a great sport. Actually it is called "brushing your teeth" (while the teacher is talking). This is one thing that will simply drive your teacher wild, especially if you get all of the class to join with you.

For the hi-fi enthusiast there is the system for putting your teacher in a horrible mood. You place two radios in the room, one in front and one in back of the room. This hint is guaranteed to work, at least once!

As you can guess by now, we have penned this, our first column, as an attempt to show our sophomores just how many opportunities there are for recreation in McCallum.

Many McCallumites before you have tried these various hints and many will follow. There was even one senior last year who would constantly slide down the banisters during his lunch hour. He now slides down the banisters of the State Hospital.

Hotrodders Halted

The Wednesday, August 31, edition of The Austin American carried a story concerning the police crackdown on teenage hotrodders. It stated that a new policy sent out by Police Chief Bob Miles orders all officers to begin giving "court case" citations to speedsters, especially those trying to escape.

Chief Miles' new policy is endorsed by the City Council and is designed to "shake the parents of teenagers into an awareness of their responsibilities as such and will cause our many fine young people to show, by their attitudes toward the guilty, just how childish and irresponsible they consider this conduct."

Court cases do not carry an immediately payable fine and offenders are tried in Corporation Court. A statement giving the facts will be attached to the citation. Parents of the offender will be notified of the violation by mail and are required to appear in court with their child.

This dangerous driving on the part of some young people is a major problem in Austin. The students and faculty of A. N. McCallum High School can help to overcome this problem by encouraging safe driving habits. Only one wrong move on the part of a teenager puts every teenager under suspension. Let's do our part to erase this problem.

Marilyn Arnott, Dick Peterson Represent MHS at Model States

"Wow," was the enthusiastic reply of Marilyn Arnott when asked about her trip to Girl's State this summer. Much the same sentiment was echoed by Dick Peterson, McCallum representative to Boy's State.

Marilyn and Dick were chosen to attend these meetings by the high school faculty. Both were 11B students at the time.

These model states are held every summer with the aim of acquainting future leading citizens with the responsibilities and privileges of American citizenship.

To learn by doing, the citizens file and campaign for offices patterned after those in the Texas government. A legislature is set up, and elections are held at the city, county and state levels.

Many prominent speakers were heard by both groups. Political party spirit reached great heights as election night drew near. Demonstrations, much like those held at the national political conventions this summer, were staged. The inauguration of all state officers was held at the state Capitol.

Boy's State was held in the UT area. The Texas School for the Blind was the scene for Girl's State.

Dick, a member of the Pioneer party, was elected Senator. When the mock legislature convened, he succeeded in getting a bill passed. It concerned the filterization of air and wastes products after industrial use. Sports were an important recreational activity. Intramural sports between "cities" were held. One of the most enjoyable parts of his stay was the friendships he made. "It was fun and I learned something," he said.

Marilyn was equally enthusiastic about her trip. She was a member of the Nationalist Party. Chair-

man of the Board of Hospitals and Special Schools was her appointed post.

All of the activities interested Marilyn. The trip to Barton Springs, inaugural services, and attending Trinity Lutheran Church were some of the more enjoyable aspects. Marilyn was also appointed representative to Civil Defense Advisory Council held in Austin.

Marilyn echoed Dick's feelings with, "It was a wonderful time and I learned something, so it was really a worth while project."

Offices Are Cooled By Air Conditioning

TO: A. N. McCallum High School

FROM: Anonymous donors

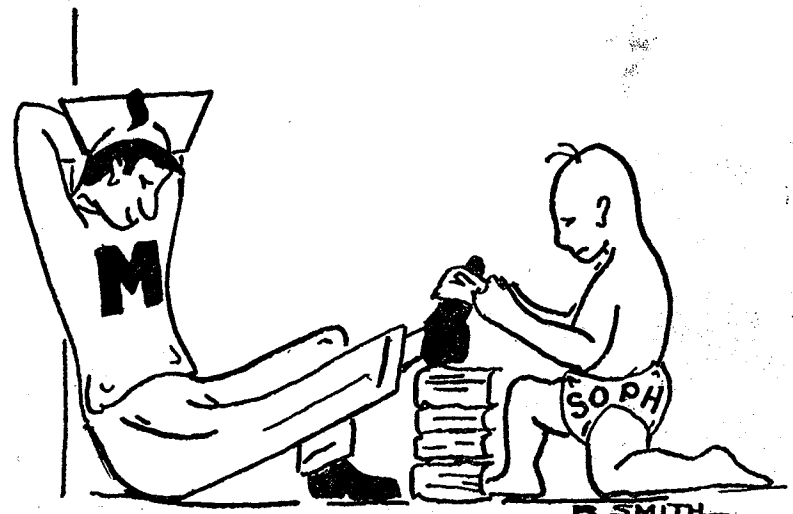

SUBJECT: Air conditioning

Four two-ton air conditioning units were installed June 23 in McCallum's offices. However, due to delays, it was not placed in operation until August 3. This air conditioning was made possible last spring by donations from public spirited citizens who wish to remain anonymous.

Mr. Wittner said that he thought it was wonderful that members of the community should take such an interest in McCallum. He also said that the air conditioning will increase the efficiency of the office staff and the output of work.

Mrs. Culley, Mrs. Floyd and Mrs. Brandt, office workers, feel as Mr. Wittner about the increase in efficiency. They also think that the 78 degree temperature is a decided improvement over the regular high 90 degree temperatures of the early summer.

McCallum now ranks with several other Austin high schools in office air conditioning.

B. SMITH

Blue Brigaders March Early

The Blue Brigade, McCallum's Girls' service organization, began its summer practice August 22 at the north parking lot.

The 91 Brigaders practiced from 5:30 a.m. until 7:30 a.m. the first week. The second week, in order to practice with the band, they marched from 7:30 a.m. to 9:30 a.m.

The Brigaders not only march, but they render service to the community and school.

August 25 the new members were taken by seniors to a surprise breakfast at Mary Ella Wagner's house where they were told of their initiation stunts. However, because of school policy initiations had to be discontinued.

The officers of the Blue Brigade for this year are Nancy Staples, president; Becky Reese, vice president; Niki Bohn, secretary; Marilyn Arnott, treasurer; Tootie Pittenger, sergeant-at-arms; and Vivian Hagood, reporter-historian.

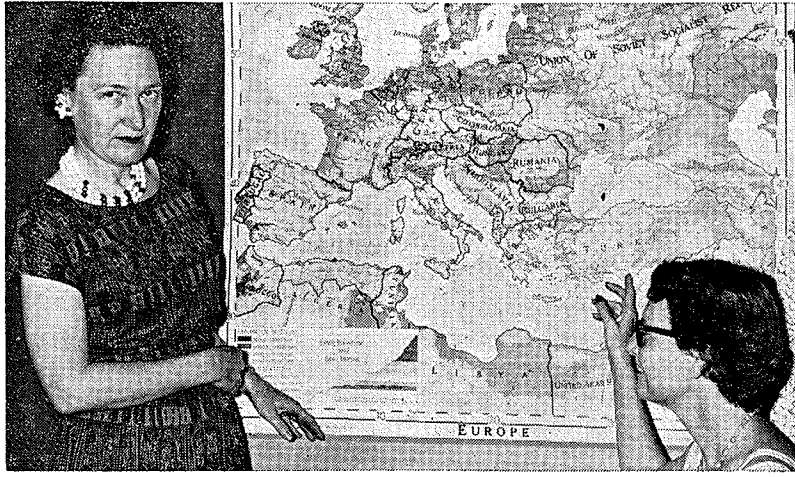

Five McCallumites Attend Workshops

During this past summer Johnny Alexander, Dorothy Baltzer, La-Jean Chaffin, John Landolt, and John Rash attended one of the many summer workshops which were held at colleges both in Texas and out of state.

Dorothy Baltzer attended a workshop at the University of Houston. Here she studied math and science and the philosophy of both. Dorothy attended the workshop from July 18 until August 26, living right on the campus grounds. "Living on the campus and learning material not available in high school" was Dorothy's most interesting aspect of the trip.

Johnny Alexander, who attended a workshop on biology, stayed in dorms on the campus of Stephen F. Austin State College where the workshop was being held. This particular workshop was held between July 11 and August 20. Johnny felt that the lab work was the most exciting aspect of the course.

Attending a workshop on geology was John Landolt. This workshop was held June 13 through July 15 at A and M College. Just as the others, John lived on the campus grounds during his stay. John thought the field trips were the most interesting phase of the workshop.

Miss Lola Allen and Miss Willa Francis Anderson watch as Miss Harrilee Heierman points out one of the many countries they visited this summer in Europe.

The Continentals

Europe Attracts Faculty Members

"We were the only Americans traveling behind the Iron curtain through Bulgaria and Yugoslavia," said Miss Willa Francis Anderson while telling of her summer travels in Europe.

Three McCallum teachers, Miss Harrilee Heierman, Mrs. Lola Allen, and Miss Anderson spent almost the entire summer traveling through 19 European countries. The countries they visited are: France, Switzerland, Turkey, Cyprus, Lebanon, Syria, Jordan, Israel, Greece, Italy, Austria, Germany, Holland, Belgium, England, Scotland, Ireland, and they spent two days traveling by train through Bulgaria and Yugoslavia.

While in Turkey they visited Mrs. Allen's son who is stationed there in the service. In Ireland they rented a car and toured the entire country by auto. While in Austria they took a boat trip

down the Danube River.

Miss Anderson enjoyed all the countries very much but she thought Switzerland was especially beautiful. "The colors were so vivid and beautiful there," stated Miss Anderson.

Another McCallum teacher, Miss Helen Boysen, also traveled to Europe this summer. She enjoyed camping out with relatives in the Swiss Alps. She saw a bullfight in Madrid, Spain, which she thought was very colorful and interesting.

Mr. K. D. Willingham, McCallum agricultural teacher, and his wife visited Europe this summer also, where they stayed with their son in Germany.

Clubs Offer Students Chance To Have Fun, Develop Skills

Even with time so precious, an hour a month is hardly a large fee to pay in order to belong to one of the many clubs of McCallum.

Some of the clubs that are operating in McCallum include the Popular Music Club, Talents Inc. and the Knight Beats. These clubs might interest students who like music and most phases of entertainment.

Future vocations are the specialties of the Future Farmers of America, the Future Teachers of America, the Future Nurses of America and the Modeling Club.

For the artist and writer there is the Sketch Club and the Writers Club.

Service is the topic of the Knight Jewels and of the three Powder Puff Leagues.

For the Homemakers there is one of the Chapters of the Future Homemakers of America.

Sports and athletics are discussed in the Football, Basketball and Track Clubs. Also in the sports line there is the Girl's Sports Club, the Water Safety Club and the Rod and Gun Club.

Automobile mechanics and safe

driving are the subjects covered by the Automotive Club and the Safe driving Club.

For students finding science their interest there is the Science Research Club.

There are the French and Pan-American clubs for students who wish to learn more about foreign languages and customs.

The Forensic Club deals with speech and debate, and the chess club holds games and tournaments for members.

The first club meeting will be held September 28, during the advisory period. The purpose of these initial meetings will be for organization for the coming semester.

To become a member of a club a slip must be obtained from the club sponsor and presented to the student's advisor before the club meeting.

Mr. Roy Coers, vice-principal, pointed out that while McCallum has a large variety of clubs, new ones may be petitioned, providing enough people wish to join it, and it is approved by the sponsor and by the office.

Annual Sets Deadlines For Student Pictures

The seniors who wish to have their pictures in the '61 Knight must have them taken at the University Studio on or before September 14, 1960. The University Studio is located at 405 West 14th.

Sophomores and juniors were to have their pictures made at Crowe Photography on September 3, 1960. Sophomores and juniors who missed having their pictures made will be given an opportunity to have them made on September 20-21 here at McCallum.

The '61 Knight will be issued in the middle of the summer so that the Spring activities can receive better coverage.

BUY LINES

Another school fashion year has begun at Scarbrough's Campus Hi Shop with exciting new styles and new members of the High School Fashion Board.

From McCallum these members are Carol Cummings, Barbara Kelly, and Bonnie Messer. They will keep Scarbrough's in touch with the ideas and needs of McCallum and with Seventeen magazine. Wonderful news for teeners! The Campus Hi Shop on the second floor is now exclusively for junior sportswear. More coordinated outfits will be available at a medium price.

Long pants are the rage now and Scarbrough's has a wonderful selection. To go with your new slacks you'll want one of the new tunic shirts and sweaters that are so popular.

The sweater look this fall is "le pull" with long full line Wool and Mohair sweaters are in beautiful new colors and with collar and neckline interest. A wonderful idea for football games is the "Crusader Tube." Made of orlon, it fits snugly over the head and neck to keep out the cold winter winds.

Need a carcoat? Scarbrough's has received a colorful variety of poplins including those with the cowl necklines. The duck "Crew Coat" is now (watch for it in Seventeen) with longer lines that reach past the hip.

The "Early American" look is in this year. Skirts, blouses, dresses, and jumpers are all in darling old fashioned prints. One of Scarbrough's cutest outfits is a grey felt skirt and weskit with a contrasting red print shirt and pantaloons.

And teeners! Don't just stop with skirts and sweaters! Scarbrough's has many other fine departments, too. The shoe department, for instance, has received all the cute new shoe styles from the "boots" to the old stand-by, the loafer.

POTENTIAL! A word that explains many forms of things. In science a word describing energy. In District 13AAAA, a word describing the 1960-61 McCallum Knights.

The 1960-61 version of the Knight football team sports one of the biggest, if not the biggest, offensive and defensive lines in the district.

A quick run over the defensive unit sees the improved Hulen Akers, 194 pounds, at right end; the bearded wonder, David Lindsay, 222 pounds, at right tackle; mammoth Jerry Spillar, 245 pounds, over the middle; hard charging Dow King, 210, at left tackle; and promising Gaylen Jackson, 187, flanking the left side.

Rounding out a promising defensive unit are four tough linebackers, Martin Tyson, Adon Sitra, Danny Clark, and Ronnie May.

The all important halfback posts will be in the hands of Jerry Hanke and Bobby Jackson.

The line up should not be misconstrued. It is subject to change upon the better judgment of the coaches.

Looking at McCallum from an offensive standpoint, size again prevails. In the backfield, calling signals is Tully Embrey, in top form after recovering from a knee operation in the spring.

The rest of the backfield consists of three, rather large hard running backs, May, Clark, and Tyson. Up front, sweeping from left to right, is Robert Myers, King, Sitra, Stan McDonald, Akers, Dick Peterson, and Gaylen Jackson. Again, this lineup is subject to change without notice.

Probably a weak point on the team is speed. This statement may bring up questions, so clarification stands in order.

A fast runner is defined around athletic circles as one who can break 10 seconds flat in 100 yards. These runners are few and far between, unfortunately.

Consequently, a slightly slower boy must make up the deficit in hard running and desire. This will more than adequately describe the Knight backfield. Speed is not abundant, but other qualities are.

Last but certainly not least concerning a winning team is depth. In the backfield at quarterback behind Embrey is Bobby Jackson and Ed Small. The halfback posts will be adequately filled with such workhorses as Ronnie Moore, Eddie Petterson, Sammy Graham and a number of others.

McCallum Meets Kimball at 7:30 Tonight In Season's Opener at House Park

The McCallum Knights open their 1961 grid campaign tonight when they tangle with the Kimball Knights of Dallas at House Park. Game time is 7:30 p.m.

This is only Kimball's second year in Class AAAA competition, and they are rated as one of the top contenders of the South Zone in the tough Dallas district. Kimball has 16 returning letterman, of which nine were starters on last year's team.

Coach Bo Campbell considers center Jim Lindsay and fullback John Atwood as his top two players. A tough defense is anchored

by tackles Joe Hill and James Cullar and linebacker Atwood. Jimmy Duffey, 147 pound sophomore, will direct the Knights wing T attack.

On paper the teams stack up about the same except for a slight weight advantage that McCallum will carry into the game.

KIMBLE Probable Starting Lineup

	Wt.	No.
FB Atwood	185	35
HB Kerr	160	24
HB Stewort	155	10
QB Duffey	147	11
RE Wood	147	82
RT Hill	185	77
RG Elliott	178	63
C Lindsay	188	55
LG Geiser	190	66
